SUMMARY

Detail-oriented Full Stack Developer with a strong focus on building responsive, accessible, and performance-optimized web applications. Experienced in developing intuitive user interfaces while working with backend technologies, databases, authentication, and APIs to deliver complete web solutions. Passionate about creating scalable, user-centric digital experiences.

SKILLS

Frontend: React.js, Next.js, Tailwind CSS, TypeScript

Backend & Database: Prisma, PostgreSQL, REST APIs, Authentication, TanStack Query

Others: Redux Toolkit, Zustand, Context API, Git, GitHub, Vercel

PROJECTS

Greenova (E – Commerce)

Tools: Next.js, TypeScript, Supabase (PostgreSQL), Prisma (ORM), NextAuth.js, Razorpay (Test)

- Built a full-stack e-commerce platform with product discovery, cart, wishlist, delivery checks, checkout, and order management.
- Implemented email/password and Google/Facebook OAuth authentication with session management, protected routes, and account merging.
- Developed an admin dashboard for managing products, users, orders, and pincode-based delivery areas.
- Integrated Razorpay (test mode) and COD with localStorage/database cart synchronization and optimistic UI updates.

SprintFlow (Sprint management dashboard)

Currently building

Tools: React, TypeScript, TanStack Query, Zustand, Tailwind CSS, @dnd-kit, Recharts, Vitest

- Building a sprint management dashboard with authentication, protected routes, and access/refresh token handling.
- Implemented Kanban task management with drag-and-drop, CRUD operations, comments, and analytics.
- Used TanStack Query, Zustand, and React.lazy/Suspense for advanced server-state, global state, and code splitting.

WriteWise AI

Tools: Next.js, Typescript, Tailwind CSS, Firebase, Context API, OpenRouter API

- Built an AI writing assistant for generating and refining emails, reports, social posts, and other content.
 - Integrated LLaMA via OpenRouter with real-time streaming and iterative content refinement.
 - Implemented authentication, guest access, auto-save, history management, and one-click copying.
-

EDUCATION

DIPLOMA (Computer Science & Engineering)

2021 – 2024

BOARD – Board of Technical Education Uttar Pradesh
